BORN to SOAR!

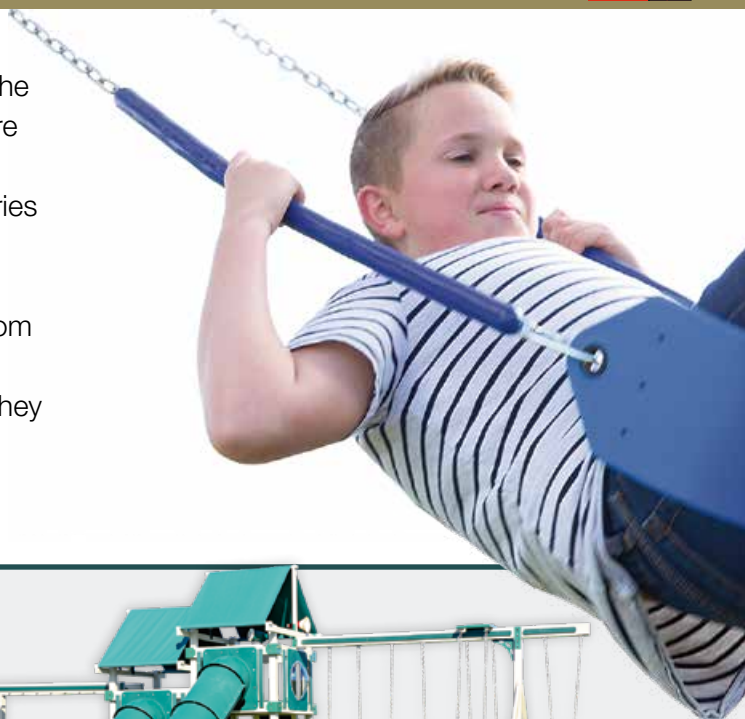

At **Patiova Playsets**, we love children! We sincerely believe in the value of free play for children's health and development—they're "Born to Soar!"

We're passionate about building swing sets that create memories that last a lifetime. Patiova Playsets are carefully crafted in Lancaster County, PA, with high-quality workmanship from primarily USA components and are environmentally friendly, from the roof to the floor.

Playsets provide your child hours of fun in the back yard plus they are a healthy part of their growth & development!

(Adult supervision recommended while playsets are in use.)

GET THE GLACIER SERIES VINYL PLAYSETS

ENVIRONMENTALLY FRIENDLY

▷ Recycled Material

Premium-grade recycled plastic lumber is an environmentally-friendly material manufactured from recycled HDPE (high-Density Polyethylene) plastic, and is sourced from post-consumer recyclables like milk jugs and laundry detergent bottles. Approximately 307 milk jugs are diverted from a landfill and used to manufacture a 2-inch by 6-inch by 12-foot plastic lumber board. Millions and millions of pounds of plastic have been saved from the landfill through the manufacturing of innovative, long-lasting, and recyclable building materials. You will feel great about the positive impact you're having on the environment and helping to save the planet!

▷ Sustainable

We believe in promoting sustainability practices and green construction efforts by creating products out of recycled plastic. These initiatives help conserve natural resources by reducing landfill waste and protecting wildlife.

▷ Recyclable Material

Another benefit of using recycled plastic lumber is that it can be recycled again once you're done using it!

BENEFITS OF PLASTIC LUMBER

▶ Longevity

Plastic lumber is an incredibly strong and durable building material that will last through extreme weather and years of even the toughest abuse.

It is also resistant to marine borers, termites, fungus, salt, and oils. With a 50 year warranty, our playsets give you peace of mind that your playset will remain a strong, beautiful part of your property for years to come.

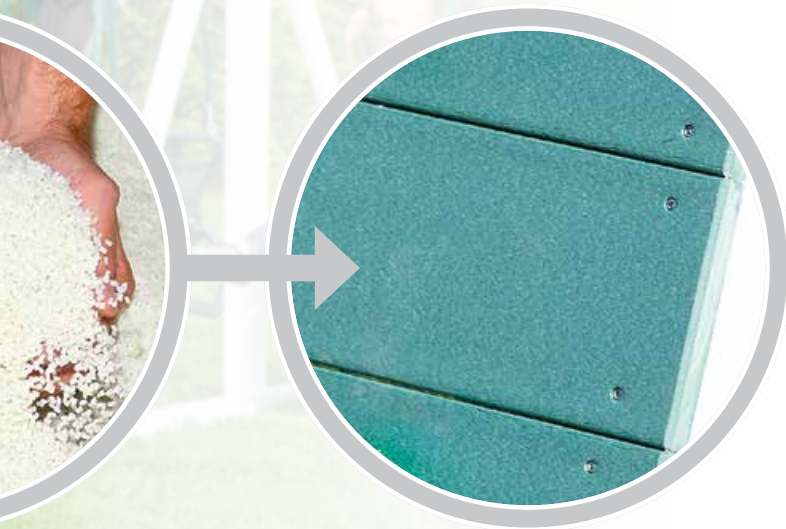

▶ Low Maintenance

No Rotting or Splintering

Since plastic lumber is impervious to moisture, it doesn't rot or crack, and insects cannot make their homes inside the boards. It also won't break down when it's exposed to the sun day after day.

No Painting or Staining

Plastic lumber won't absorb moisture from rain, snow, and other forms of precipitation or condensation. The color is manufactured throughout the entire product with UV inhibitors, so exposure to UV light will not fade it. Plastic lumber can simply be cleaned with water, or pressure washed to look as good as new.

Glacier Series 10-Year Warranty

All products are **guaranteed for ten years** against defects in the manufacturer's workmanship or materials. Treated wood carries a **limited lifetime warranty** against decay and termite infestation. Vinyl and PVC parts carry a **limited lifetime warranty** against fading & discoloration. No other warranties of merchantability are made by the manufacturer.

The manufacturer's products are not warranted as being suitable for a particular purpose. The suitability of products is for the purchaser to determine.

Warranty requests must be accompanied with pictures or physical evidence. Remedy of the warranty consists of repair or replacement of the defective part. Shipping or labor costs may incur an additional charge.

Sets are designed to be used safely for many years. Upper grades of lumber are selected for manufacturing. Lumber is dried after treatment and encased in premium grade vinyl sleeves. Metal parts are either rust-proofed and/or plated to resist corrosion. The manufacturer reserves the right to make design and construction changes without notice.

At least three to five inches of playground mulch should be installed in play area to increase safety and enjoyment.

THE AVALANCHE PLAYSET

comes with a 5'x5' platform under a pyramid roof and sits 5' off the ground. The slanted legs on this set support the rock wall, cargo net and ladder. Under the platform is a three chain swivel tire swing waiting for your child to take it for a spin. A spiral slide, 10' climbing set and four-position swing beam with swings are more fun activities this set has to offer. Let us help you customize this set to fit your needs and wants.

WHY THE AVALANCHE?

- Spiral Slide
- Lots of Activities
- Pyramid Roof

DRAMATIC DELIGHT!

ADDED FUN!

◁ Tic Tac Toe

Are you ready to have fun? How about an exciting game of Tic Tac Toe? Add this fun and easy outdoor game to your playset!

WOOD PLAYSETS

ENVIRONMENTALLY FRIENDLY, FROM THE ROOF TO THE FLOOR

▷ **1: Slides, Swing Seats, & Climbing Ladder Rungs Made in USA.**

(See options; pages 62-65)

▷ **2: Optional Poly Slats** carry the added benefits of no splinters, no maintenance, & extra color (wood slats standard).

▷ **3: Optional Wood Roofs** are made with weather-resistant lumber.

▷ **4: Bare Feet's Best Friend!**

Floorboards are a splinter-free wood alternative that is easy to maintain and does not require synthetic preservatives or coatings.

▷ **Wood Products** are harvested stateside by companies who have aggressive environmental programs in place. Our treated wood uses non-arsenic based, environmentally safe preservatives to combine the natural beauty of real wood with proven long-lasting resistance to termites and fungal decay. It can be painted or stained if desired and will benefit from periodic water repellent coatings for best appearance.

△ 1

△ 2

△ 3

BENEFITS OF WOOD

Patiova Playsets Cascade Series uses wood for most structural components. What are some benefits of using wood?

▷ Wood is Natural & Earth-Friendly

In the southern states, where the wood for the Cascade Series is harvested, tree farming is effective in preventing soil erosion. Thus, tree farming benefits our ecosystem by preserving top soil and reducing soil runoff into creeks and streams. Since wood grows naturally, it is earth-friendly.

▷ Wood is a Very Renewable Resource

Due to improved forest management, more wood is available now than 25 years ago. As long as we have sun and rain, we will never run out of wood!

▷ Wood is User-Friendly

Wood can be sanded when scratched. If necessary, wood components can be replaced and easily matched.

THE OLYMPUS PLAYSET

comes with a 4'x6' tower on slanted legs featuring an adventurous rock wall and an easy to climb ladder. You will find a fun tire swing mounted on a swivel under the tower. The swing beam has room for three swings, perfect for hours of delightful squeals as your kids glide back and forth. The 10' wonder wave slide coming off the deck will put a smile on your kid's face. We can make changes to this set to fit your needs; let us customize it for you today.

WHY THE OLYMPUS?

- Rock Wall & Cargo Net
- Lots of Activities
- Large Platform

CONQUER NEW REALMS!

NEW HEIGHTS!

◁ Rock Wall

Scale this rock wall to new heights on your way to new adventures.

Cascade Series 5-Year Warranty

All products are guaranteed for five years against defects in the manufacturer's workmanship or materials. In addition, treated wood carries its warranty against decay and termite infestation. The manufacturer makes no other warranties of merchantability.

The manufacturer's products are not warranted as being suitable for a particular purpose. The suitability of products is for the purchaser to determine. Adult supervision is recommended while playsets are in use.

Sets are designed to be used safely for many years. Upper grades of lumber are selected for manufacturing. Most lumber is dried after treatment and resurfaced with rounded edges for safety, comfort, and ease of maintenance. Metal parts are either rust-proofed or plated to resist corrosion. The manufacturer reserves the right to make design and construction changes without notice.

Assembly instructions are included for sets requiring on-site assembly. At least three to five inches of playground mulch should be installed in play area to increase safety and enjoyment. Exterior paints or stains may be applied to any set.

© 2022

Cascade Series Maintenance & Use Instructions

- 1. Check that all attachments are secure** three weeks after playset is installed. Continue to check regularly and secure as necessary thereafter.
- 2. Inspect regularly for broken or damaged pieces.**
Splintered surfaces should be sanded smooth to avoid danger of injury. Cracks resulting from weathering are normal; pieces developing those cracks do not need to be replaced. However, pieces with structural damage DO need to be replaced promptly.
- 3. On swing sets with a tire swivel:**
The swivel should be checked and lubricated on a regular basis.
- 4. Staining instructions:**
A quality water sealer and/or stain can be applied per owner's preference. For best results, apply sealer/stain within a month after playset installation, following instructions on product label. If your playset was purchased with a stain already applied, it should be re-sealed within two years with a sealer/stain of your choice. When applying follow-up treatments, always follow instructions on product label.
- 5. Children playing on playsets should be supervised by an adult at all times.**
